

Hired & Acetech

Hired has created an on-demand way for companies to hire top tech talent for less than the cost of agencies. Each week, Hired presents the top talent selected from tens of thousands of applicants. The platform empowers hiring managers and internal recruiters with a productivity tool that helps accelerate their sourcing efforts and generates a weekly pipeline of local and relocation candidates to Toronto. The local Hired Toronto team works with each company to understand hiring needs, company culture and vision to help get them in front of the top candidates who are most relevant. Additionally, we work with candidates to understand their interests and skills to make sure they are a perfect fit for the respective company.

In collaboration with AceTech's mission to help Ontario's tech companies become more competitive, we'd like to make a special offer to only AceTech companies: 10% discount (i.e. 13.5% fee of base salary) applied to your first hire made within a 90-day period from joining the platform.
